THE MINNESOTA MURDERER.—The memorial of the citizens of Minnesota, to the President, protesting against the pardon of re piece of any of the condemned Indians contained in the Lt Governor in that State contains the following, recalled the horrid cruelties of the savages

Mr President let us state to you some facts with which we fear you have not heretofore been made acquainted These Indians, whom, as we understand you propose to pardon and set free have murdered in cold blood nearly or quite one thousand of our people, ravaged our frontiers for a distance of more than one hundred and fifty miles north and south, and burned the homes of more than ten thousand of our people They seized and carried into captivity nearly one hundred women and young girls and in nearly every instance treated them with the most fiendish brutality To show you a sample the enormity of their outrages, we beg leave to state a few facts which are well known to our people but delicacy forbids that we should mention the names of the parties to whom we refer In one instance some ten or twelve of these Indians visited the house of a worthy farmer, who at the time was engaged with his sons in stacking wheat They stealthily approached the place where the honest farmer was at work, and seizing their opportunity, shot the father and his two sons at the stacks They then went to the house, killed two little children in the presence of their mother, who was quite ill of consumption, and they took the sick mother and beautiful daughter, thirteen years of age, into captivity But this is not all, nor is it the most appalling portion of the awful tragedy Its horror is yet to be revealed After removing these unhappy persons to a lodge which was some miles away, these fiends incarnate, placing a guard over the body of the weary and exhausted mother, took her little girl outside of the lodge, removed all her clothes and fastened her upon her back upon the ground Then they commenced the work of brutality upon the body of the young girl One by one they violated her person unmoved by her cries, and unshaken by the evident signs of her dissolution. This work was continued until her Heavenly Father relieved her from her suffering. They left her dead upon the ground This outrage was committed within a few feet of the sick and dying mother

There is another instance of a girl eighteen years of age We knew her well before and at the time of her capture She was as refined and beautiful a girl as we have in the State. None had more or better friends, no one was more worthy of them than she She was taken captive by the Indians She was taken, her arms tied behind her, she was made fast to the ground and ravished by some eight or ten of these convicts before the cords were unloosed from her hands This girl fortunately lives to testify against the wretches who had thus violated her Without being more specific, we will state that all, or nearly all, the women who were captured were treated in this way

Again, there was a little boy brought to Lieutenant Paul whose father and mother had been murdered, whose life was spared as a witness of the horrid massacre His right eye was cut completely out, it had fallen from its socket and had perished on his cheek — His two little sisters, aged respectively six and four years were also saved, but in an awfully mutilated condition, their tender arms had been mangled with the savages' knives, and they were otherwise fearfully wounded and left on the ground for dead.

SATURDAY MORNING JAN 17 1863

An Unfounded Dread

The staple of the arguments of a certain political party for a generation back has been to alarm the people upon the subject of negro equality Many gentlemen who it would reasonably be supposed, were above the fear of any such a thing have been telling us for a life time past that they were in constant dread that somebody's Africans would yet marry their female descendants even if such an undesirable and piebald matrimonial arrangement could be delayed so long The Hon Charles Drain now an honored member of the Union party at one time was so entirely overcome by apprehensions that white men would be compelled to wait at the polls until the negroes got done voting, that he had to rush wildly into print about it We are intimately acquainted with a number of highly respectable gentlemen of this city, who are kept awake of nights and have small appetite for food, for fear in some future time, somebody's negroes will be as good as some of their descendants when the very persons thus alarmed have not even taken the initial steps to have any descendants at all Most of these are men of Southern birth but the Northern born man is the most amusing specimen of the anti negro equality alarmists He is always recognized by the earnestness with which he protests against the suspicion that he may be a "d—d Abolitionist" He is particularly careful to convince his Southern friend that he considers himself better than a negro, and seldom fails to let people know his opinion of the "d—d niggers" He is distressed beyond measure when he hears the overseer style of Chivalry say "Well my opinion is, that a man who thinks a nigger is as good as himself, is no better than a nigger." Whenever any of the overseer Chivalry tell about somebody's negroes being stolen, he expresses the greatest commiseration for the owner, attributes it to the "d—d Abolitionists," and thinks the South ought to secede No wonder the Southerners have a contemptible opinion of the Northerners, when they measure them by these miserable toadies

We have heard so much of these fears that somebody is about to be put on an equality with the negroes, that we are beginning to believe that those who fear it, for themselves, have such a consciousness of their own secret meanness, that they do not consider themselves so much better than a negro after all We also think that any negro who has got spirit enough to earn his freedom, and to act out his duties as a freeman is in just one thing superior to Northern toadies to the nigger overseer Chivalry, and that is in this The negro, being born a slave, struggled into the light of Freedom, and the white being born a free man with nothing but Almighty God above him, sinks his dignity as an American citizen, and becomes the willing slave of some fellow whose highest position in the South was "overseer" of some gentleman's field hands Let it go abroad as a fact, that gentleman, in the Southern States and here, do not share this dread of negro equality, and it is by the white man elevating himself that the negro is kept "in his proper place" So long as we are white and negroes are black, so long will the disparity of races exist, unless we can fancy the haughty composite race of Americans voluntarily abdicating their superiority Of this, we have no fears

Thus much we have said because we see a tendency in this State to excite popular apprehension, by a certain class of men, on this subject We repeat it When you see a man using very contemptuous expressions about negroes, he really entertains a doubt whether he is better than a negro or not The same is true of those who are constantly afraid of being taken for "a d—d Abolitionist"

ATTEMPT TO MURDER —The *Mountaineer* says that on the night of the 14th inst, at 9 o'clock, an attempt was made to murder Mr Wm. NIX, a citizen of Dalles It appears that Mr. Nix was going into Remig's Oyster Saloon, when he was assaulted by a man, whom he did not recognize, with a stone of about two pounds weight slung in a pocket handkerchief The force of the blow jerked the handkerchief out of the villain's hand and he at once fled, leaving his hat handkerchief and the death-dealing weapon behind him — Mr. Nix received a heavy blow from the stone on the head, but is not dangerously injured Suspicion has not taken any particular direction

NEW STEAM LINE —The steamer *Scotland* the first of the Japan, China and San Francisco line of steamers has arrived in San Francisco. Hereafter the time of travel from New York to Kanagahwa or Shanghae will be forty days from San Francisco to the same points about twenty four days

Capt W H Black of the 9th Infantry, U S A. long and favorably known in Portland has been appointed Colonel of the Sixth Infantry, California Volunteers The right man in the right place

OLYMPIA Jan 15 1863

EDITOR OREGONIAN

The two Houses of the Legislature met in joint convention today for the purpose of electing the territorial officers Two ballots were had for printer, resulting in no choice The candidates received the highest number of votes were J F M Prosser N N Ebbrup and George A Barnes On the tenth ballot Mr Barnes received 18 votes lacking one of a majority To-morrow morning's session will be the last unless the joint convention to-morrow shall fail to elect the majority of the parties elected will have an opportunity to qualify for entering upon the duties of their offices

The business of legislation is rapidly crowding to a close In both Houses the following bills have passed and become laws An act to create and organize the county of Boise An act to confer jurisdiction upon the District Court of Boise county and to transfer to the District Judges—Judge Wache to the first Judge Oliphant to the Second and Judge Hewitt the Third District an act amending the charter of the Columbia Transportation Company an act to provide for the care and medical treatment of the insane —bill provides for making contract with the proper officers or directors of the Oregon Insane Asylum About forty other bills have passed within the last four days, all of which I believe, without exception have reference to some local matter or confer a bridge ferry road or canal franchise These privileges I regret to say seem to take precedence over all other matters in the way of legislation — Many important measures for the public good are thrust aside and disregarded under these local pressures. The revenue bill although introduced more than a week ago has not been acted upon in the House This bill is of paramount interest to the whole people is well guarded in its features and should become a law The system of taxation is similar to that now in force in California The appropriation bill passed to its second reading and was referred to the committee on Elections, since which time seven days ago it has not been heard from It is doubtful whether it will ever see light I understand another bill of a like nature will be introduced in the Council within the next two or three days

We are again visited with a slight sprinkle of 'Oregon mist' ORPHEUS

The "Crazy Henry" Case

OREGON STATE INSANE AND IDIOTIC ASYLUM
EAST PORTLAND, January 16 1863

EDITOR OREGONIAN

In the Jacksonville *Sentinel* of the 10th inst, appears the following article

ANOTHER INSANE PERSON — Dutch Henry, of Applegate, the person who shot Mr Risse on Bear Creek, a short time since, is quietly awaiting the decision of the county courts to say whether the Insane Asylum at Portland He is to-day said to be the unfortunate affair on Bear Creek was a plan to be a danger to society If so understand the facts right he was sent not long since from Jewitt to Portland as an insane person was examined by two physicians and put in jail there He set the jail on fire and was by some means or other suffered to escape He came to this county was detected about the mountains unshaven, unkempt, himself driving stock hither and thither and now after having a dangerous ally wounded one four citizens is to be sent back to Portland with a consequent expense to this county of over three hundred dollars So much are the beneficent operations of our Eastern Lunatic Asylum Why was Dutch Henry kept at Jacksonville where he was suffered to go at large simply because, by being in jail he showed himself to be a less dangerous maniac? Are none but the quiet and harmless to be kept in the State establishment

In reply, I would state that on the morning after the arrest of the jail, I spoke to Marshal Grooms and suggested the propriety of his making out the necessary complaint to the County Judge and have Dutch Henry examined as to his sanity Mr Grooms informed me that he was put in jail temporarily and that Mr Arnold, Deputy Sheriff, had received a letter from Dutch Henry's brother requesting Mr Arnold to take care of him Mr Arnold summoned Drs Davenport and Hawthorne, who pronounced him insane whereupon, Mr Arnold said he would keep him for a day or two, and if no improvement took place, he would have him sent to the Asylum I afterwards learned that Dutch Henry had got well and left the city

I have frequently called the attention of citizens and officers to insane persons running at large in the streets of Portland, who I considered dangerous, and they were duly committed to our Asylum's treatment We have ample accommodations for patients and receive every one that is sent to us according to law

Jackson county has furnished us one of the most dangerous patients that an Asylum ever possessed, and this at a time when our accommodations were few for such cases We have ministered to this mind diseased now with standing that the majority of persons who had any communication with him were fearful of being killed This patient, John Hodgens, is now convalescing

The 'State establishment' will accommodate any kind of persons or patients who are sent to it

Will the *Jacksonville Sentinel* do us justice by publishing this

Yours respectfully
A M LORYEA M D
Attending Physician.

MARRIAGE AND MONEY —These two all pervading, conservative and productive institutions of modern society from and after the 16th of this month must operate under the new laws of the late session of the Assembly So all we that premeditate marrying or giving in marriage, borrowing or lending the sweet pecuniary take notice and act accordingly The Constitution provides that laws shall not take effect (unless otherwise declared for special reasons) for ninety days after the session at which they were passed Our impression is that the Assembly adjourned on Friday, the 17th of October but the forty days did not expire until Saturday, the 15th and if the Assembly did not adjourn until the latter day these laws would not take effect until to day But we incline to think the former date correct Every one knows what the money or usury law is, and it is unnecessary now to recapitulate it The lending provision is that the legal rate of interest in this State shall be ten per cent per annum, with liberty to contract for twelve per cent The penalty for usury is a forfeiture of the principal to the common school fund The matter of marriage being generally understood No person is authorized to solemnize marriage with out a license therefor from the county clerk The county clerk cannot issue this license with out the express consent of the parent or guardian unless the female be above the age of eighteen years and the male above the age of twenty one A violation of these prohibitions subjects the party to a fine of not less than one hundred dollars or imprisonment in the county jail or penitentiary in the discretion of the Court

The Forest divorce case is again before the New York courts It is now fourteen years old

SPECIAL DESPATCHES TO THE OREGONIAN

LATER FROM THE EAST.

Dates to January 8th.

MURFREESBORO Jan 3d —Gen Bragg's army left will not survive their dead The Union army is well fed The battle field reveals terrible slaughters in their ranks it is [illegible]

The Richmond papers say that the Federal Government will [illegible] complete evacuation of the Yankee army near Murfreesboro On the 30th ult only 100 wagons loaded with commissary stores and paroled 700 prisoners

New York Jan 7th —Richmond papers contain official despatches from Gen Bragg who acknowledges that the Union forces were strongly reinforced and they were obliged to fall back to Tullahoma

Nashville January 7th —In view of Jeff Davis's recent order that all Federal officers captured shall be held till Gen Butler is taken Rosecrans ordered that officers in command of rebel officers estimate their loss at from twelve to fifteen thousand with great slaughter of leading officers Our force is within nine miles of Murfreesboro engaged with the enemy's rear guard

Later dates reduce our loss in killed wounded and missing to 7 000

The Richmond papers also have the following: Chattanooga, Jan 3d Yankee prisoners from 28 different regiments have been brought in within two days

The Fredericksburg *Republican* of the 1st of January states that 5 000 Federals under General Burnside left the front of East Tennessee and Virginia railroad burned important bridges and captured 200 rebel cavalry The *Republican* says it will take several weeks to repair all damages

Washington Jan 8th —Richmond papers of Monday have a dispatch from Gen Pemberton at Vicksburg, which says The Federals finding all efforts to make an advance in our position of no avail, have entrenched, leaving a considerable number of their force entrenched They took their property with them and have, apparently relinquished their designs on Vicksburg

Miscellaneous Paragraphs.

Circumstances go to show that the evacuation of the ten guerrillas by Gen McNeil is totally indefensible

A slave was arrested in Richmond on the 27th of November, for stealing eleven pounds of coffee, valued at twenty six dollars

Dr Bourgeaud states that there have been 2,190 interments in the various cemeteries of San Francisco, during the year 1862

Dr Wm. Hall's Balsam!—This popular and truly valuable medicine continues to effect the most astonishing cures and if the statements of good citizens are entitled to credit it is worthy the attention of every CONSUMPTIVE on a fair trial by all who are troubled with any disease of the Throat or Lungs

ROBBERIES.—It has become the fashion in the mining sections to the east of this place, when a man gets out of money, to go right off and get robbed. He then has an excellent excuse to throw himself on the sympathies of men. This practice has come to us, along with many other artful devices. We have information of one man who got robbed, according to his story, of a considerable amount of money the other evening, which he never had, and also some valuable jewelry which he had never been seen to wear. Hereafter we shall insist on a man having something to be robbed of before we believe that he has been robbed at all. The artifice of coming into public house at a late hour, and asking lodgings gratuitously on the plea of having been robbed, is exploded. There are doubtless many bad characters in the city, but none that can steal nothing which they do not get their hands on.

DOWN THE RIVER.—The shipments of produce from up the Willamette are on the increase. With a degree of prudence, not before allowed to Oregon farmers, the producers are availing themselves of the chance to get the fruits of their labor to market. It will be found to be wisdom to make the most of the demand for interior products, the coming season. The mining trade will be at the briskest by the middle of March, if not before, and it is then, if at all during the present year, that there will be good prices ruling. Apples appear to be coming down in large quantities, as if the stock were inexhaustible.

THE NEWS.—We are in receipt of Yreka dates to the 11th of January, and are enabled to lay before our readers one day later news from the East. If the connection is not again broken, we may depend on having still later by the mail to-night and to-morrow.

EXPLANATION.—Mr. Councilman Hallock did not debate a point of order, at the last meeting of the City Council, as might be inferred from a paragraph in this paper yesterday morning. The fact is, there is much room, at times, in the management of the municipal part of city legislation, arising from a neglect of formalities which we hold to be essential to the proper conduct of business.

TERRITORIAL OFFICERS.—The following Territorial officers, for Washington Territory were elected, on the 14th inst. George A. Barnes, Public Printer, R. M. Walker, the present incumbent, Auditor; Wm. Cock, Treasurer, and J. C. Head, Librarian.

A CONTRAST.—Sacramento correspondence to the Marysville *Appeal* contains a notice of the scene at the old Democratic headquarters, the Orleans Hotel, on the receipt of the President's New Year's Proclamation, which we quote.

"A conclusion would have been arrived at by the reader, if he could have witnessed the excitement at the Orleans last night when the reading of the final proclamation of freedom had been completed by a dozen knots of black-coated 'abolitionists,' who sent up without preconcert 'three cheers and a tiger,' for made the old Democratic headquarters tremble as with the throes of a new birth unto righteousness. And the proclamation will be hailed by a large majority of the Legislature when it gets regularly to work. Meanwhile, what a contrast was this scene in the Orleans to one in front of it about six years ago. On that occasion the Republicans were seeking to hold their first mass meeting in California. Their speakers, Geo. C. Bates and E. B. Crocker, were driven from the stand and rotten-egged by Democratic officers, some of them attached to the Supreme Court, the stand was broken down and the meeting broken up."

DECLINES TO RECEIVE THEM.—On Saturday, January 3d, the Assistant Treasurer of the United States declined to receive from State Treasurer Ashley $183,000 in United States Treasury notes, on account of the sum due from the State for Federal taxes. The San Francisco *Call* says:

"Cheesman does not refuse to accept the U. S. notes on the ground that they are not legal tender, but he declines to receive them on the ground that the people paid their national taxes in gold; that it was paid over to Ashley simply as their temporary custodian, and that it is his duty to pay over to the Federal Government the precise funds given him by the people for that purpose. It is now for the Legislature of this State to take action in the premises, and to say whether or no the Treasurer has acted in good faith toward the people of the State and toward the Federal Government."

A Cough.—The sudden changes of our climate are productive of COLDS, BRONCHIAL and ASTHMATIC AFFECTIONS, Experience having proved that simple remedies often promptly and certainly when taken in the early stages of the disease, recourse should at once be had to Brown's *Bronchial Troches*, or Lozenges for the Cold Cough, or Irritation of the Throat be ever so slight as by neglect or exposure a more serious attack may be effectually prevented. PUBLIC SPEAKERS and SINGERS will find them useful for clearing and strengthening the voice. See advertisement. dec16dawôm

Wells's Fever and Ague Drops—For the cure of AGUE, PANAMA FEVER, NEURALGIA and GENERAL DEBILITY.

This medicine has been used in private practice for many years with great success. Indeed in no instance has it failed to effect a speedy cure, in Ague especially, one bottle having been found sufficient in most cases and in none are more than two bottles required.

A great number of testimonials could be given to verify the above, but the proprietor prefers relying upon the merits of the medicine alone. A cure is guaranteed in every case, or no pay.

For sale only by ROBERT WHITE, Chemist and Druggist, Main street, Placerville, and Broadway Upper Pioneer Block. For sale by all respectable Druggists throughout the State.

Too Much Cannot be Said

in praise of the wonderful effects of the Electrical Fluid when properly applied by the Electrician. Disease cannot exist where the Electric Fluid is properly applied. Let the sufferer call on the Doctor and learn what Electricity will do for him. It is the most powerful agent in the world for the cure of disease. It is the great Life Principle. It is the Vital Fluid. It is the Nerve Power. It is the great Motive Power. It is the Blood. It is the Life. It is the Soul. It is the Spirit. It is the Mind. It is the Thought. It is the Will. It is the Power. It is the Energy. It is the Force. It is the Action. It is the Motion. It is the Life. It is the Soul. It is the Spirit. It is the Mind. It is the Thought. It is the Will. It is the Power. It is the Energy. It is the Force. It is the Action. It is the Motion.

Awaken the Magnetic Life within us

All sickness arises from a want of Electrical Action in the system. By bringing a fresh supply of Electricity into the system, the Electrical Action is restored, and health is the result. Electricity is the great Restorer of Health. It is the great Builder of Health. It is the great Builder of Strength. It is the great Builder of Life. It is the great Builder of Soul. It is the great Builder of Spirit. It is the great Builder of Mind. It is the great Builder of Thought. It is the great Builder of Will. It is the great Builder of Power. It is the great Builder of Energy. It is the great Builder of Force. It is the great Builder of Action. It is the great Builder of Motion. It is the great Builder of Life. It is the great Builder of Soul. It is the great Builder of Spirit. It is the great Builder of Mind. It is the great Builder of Thought. It is the great Builder of Will. It is the great Builder of Power. It is the great Builder of Energy. It is the great Builder of Force. It is the great Builder of Action. It is the great Builder of Motion.

No Compromise with Disease.

Every disease has strength and nature will relieve herself. Physicians who do not call to their aid the Electrical Fluid may call it what they please, but they are only ELECTRICAL quacks, and all their efforts are only ELECTRICAL quackery. Let the sufferer call on the Doctor and learn what Electricity will do for him. It is the most powerful agent in the world for the cure of disease. It is the great Life Principle. It is the Vital Fluid. It is the Nerve Power. It is the great Motive Power. It is the Blood. It is the Life. It is the Soul. It is the Spirit. It is the Mind. It is the Thought. It is the Will. It is the Power. It is the Energy. It is the Force. It is the Action. It is the Motion. It is the Life. It is the Soul. It is the Spirit. It is the Mind. It is the Thought. It is the Will. It is the Power. It is the Energy. It is the Force. It is the Action. It is the Motion.

To the Ladies of California.

Dr. Van Zandt is a success with young ladies and women, both in family and office practice, owing to his correct views of the origin of all ills or maladies. Ladies feel at once at home with entire confidence, and he is especially successful in those cases of suffering, brought on by the only too common practice in California, where nearly all young ladies are more or less troubled with those painful irregularities which are the result of ignorance, and which, if not properly attended to, will undermine the constitution, and make life a burden. Dr. Van Zandt, with his new method of exciting the Electro-Galvanic current together with his remedial measures which are adapted to the peculiarities of California, will assure you of a complete and radical recovery of all bodily and mental infirmities, and will restore you to usefulness and spare you a blessing to your family and society.

All the world over

wherever disease exists whether special to the soil and climate or common to all regions—epidemic or casual, acute or chronic, in either sex, young or old, married or single, at any period of life, requiring the ELECTRO GALVANIC equilibrium especially in California, as it is to save food to the starving. This statement is based upon a series of facts coming through many years and verified by hundreds of patients so that the principle of science a rule of experience no result of any well known cause rests upon more sure and unassailable foundations than those which underlie the world wide reputation of Electricity for the cure of all nervous states of the body, faulty digestion, mental and physical debility, or prostration, coughs, asthma, wandering pains of a rheumatic, gouty or neuralgic character, and all forms of disease, the result of scrofula or constitutional taint of body.

None Need Despair of Relief.

If you have ulcers which will not heal—pains that cannot be removed—melancholy which you cannot shake off—loss of power which you cannot regain—depression of spirits which you cannot throw off—weakness that leaves you sleeping—tortures that languishes for want of energy—a void which no society can fill—suspicion which no assurance can allay—Go to Dr. Van Zandt, for his great success and the safety with which he administers his new method of electrical excitation together with his remedies which are adapted to the requirements of climate and constitution will assure you of a complete and radical removal of all bodily and mental infirmities, within the scope of science and man to remove.

The Eye and Ear Diseases.

It must not be forgotten by the eye and ear sufferers that Dr. Van Zandt has made these affections an especial study and that he is the only Surgeon in our State who has a diploma for that branch of practice. Very many of the eye and ear troubles are purely deranged nervous action, and are cured by his electro-galvanic battery. Amaurosis, squinting, cataract, floating specks before the vision, twitching of the eyelids, nervous deafness, roaring and buzzing noises in the ears, giddiness etc. All operations successfully done on those delicate organs of sense.

DR. BAKER'S

PAIN PANACEA.

Is composed entirely of healing gums and vegetable oils and herbs. It is perfectly safe for the most delicate to use. I can most sincerely say that I have never known any, however delicately to be injured by it in the least. I will continue to look for the afflicted who have not used it, to try it for the following diseases. If they are not satisfied with its healing properties the money will be cheerfully refunded by the agent where the medicine is for sale.

If you have pain in the stomach or bowels, try a dose of Pain Panacea internally, bathe externally over the parts affected and you will at once restore the proper action and relieve the pain.

If you have a Bruise or Wound, bathe it well with the Pain Panacea four times a day. It will relieve the pain, and take out all the poison, and heal the wound in a short time.

If you are suffering from Neuralgia or Rheumatic Pains, apply the Pain Panacea freely and take a dose of it internally, morning, noon and night, it will not only cure the pain, but will remove the cause of the disease.

If you have the Dyspepsia, and your food distresses your stomach after eating, take a dose of Pain Panacea after each meal.

If you have a Cankered or Sore Mouth or Throat, apply the Pain Panacea to the affected parts, and gargle the mouth or throat three or four times a day.

If you have the Diarrhœa, or a relaxed state of the bowels, take a dose of Pain Panacea, and they will soon be restored. If you have a painful swelling, bathe the parts freely and you will soon relieve pain, and the swelling will be reduced.

If you have a severe tooth-ache, apply the Pain Panacea on a piece of cotton and bathe the gum at the same time, it will stop the pain instantly.

If you have a pain in the Breast, Side, Back or Kidneys, bathe the parts affected morning and night, at the same time take a dose of the Panacea internally.

If a Mother has a caked breast apply the Panacea as hot as it can be borne.

If you feel chilly or cold, as though you were going to have a fever, take a dose of Panacea.

If you have a wound cut or galls upon your horse, apply the Pain Panacea. It will take out all the inflammation and heal the sore in a short time.

The following bill, showing the policy of the government was introduced at the commencement of the present session, by Mr Stevens, chairman of the Committee on Ways and Means

Be it enacted by the Senate and House of Representatives of the United States of America, in Congress assembled That the Secretary of the Treasury shall as far as possible, redeem and call in the five-twenty bonds and all seven thirty bonds which have been issued since the 4th of March, 1862, and cancel the same

SEC 3 *And be it further enacted*, That the law authorizing and requiring the payment of interest on United States bonds in gold, and which authorized the issuing of five-twenty bonds, is hereby repealed

SEC 4 *And be it further enacted*, That in order to enable the Secretary of the Treasury to carry into effect the foregoing provisions, he is hereby authorized to issue $1,000,000,000, if so much be needed, of bonds of the United States similar in amount and form to those authorized by the act entitled "An act to authorize the issue of United States notes and for the redemption of funding thereof, and for funding the floating debt of the United States,, approved February 25, 1862, with interest payable semi-annually in the lawful money of the United States, and the principal payable in twenty years in gold or silver coin of the United States, also to issue legal tender notes of the United States, the amount not to exceed, with those already authorized, five hundred millions

SEC 5 *And be it further enacted*, That, instead of the bonds hereby authorized to be redeemed, the Secretary of the Treasury be authorized to exchange the bonds authorized by this act upon such terms as he may deem advantageous to the government, or pay them in legal tender notes

SEC 6 *And be it further enacted*, That all banks, savings institutions or persons who have authority to issue notes as a currency shall pay a tax, to be assessed as other taxes, of fifty per centum on all their circulation which shall exceed one half of their capital paid in, provided this section shall not go into operation until ninety days after the passage of this act

SEC. 7 *And be it further enacted*, That whenever the government requires more money than is hereby provided, the Secretary of the Treasury may sell any portion of the billion of bonds hereby authorized at such price as he may be able to obtain for the same

Farm Accounts.

"No new text," you will say No a very old one, and we will add, as good as it is old. For these little tell tale figures, these nut shell contributions are great in their revelations. Let us think

They tell him, who keeps them, how much the ends lap over or fall short at the end of the year, how each particular crop repays the cost of its production, which to cultivate and which to discard in the future, markets and other things remaining the same. They afford work and satisfaction for the mind

To others they tell where and how some one has made money or lost it, and raise a spirit of inquiry—a revelation of modes of culture, to account for successes or failures, that benefits all engaged in the same profession, marking him who keeps and publish es them a public benefactor. The practice, we are sorry to say, is not general But the leaven is working. The number rapidly increases

The year is not yet completed, and we cannot now look for tables; but the results of many crops are already known Farmers who have kept up their account books will confer a favor upon us and our readers, by forwarding us an occasional leaf therefrom, accompanied with explanatory notes from their journals.

RUSSIAN MEMORIAL—The monument erected at Novgorod, to commemorate the thousandth year of the existence of Russian nationality, consists of a colossal circular pedestal supporting an immense globe of bronze, surmounted by a figure representing Religion holding up the Greek cross, beneath which Russia is seen reclining, her hand upon the Imperial escutcheon The base of the globe is surrounded by the persons who represent the various epochs Rurrik, the freebooter, and the first King, Vladimir, the first male Christian Monarch. Demetrius Donshkoi, who won the first victory over the Tartars. Ivan III, who first took the title of Czar, Michel Federovitch, the first Romanoff, Peter the Great, the regenerator of his country Just below the second cornice a cortege in bas relief represents the persons who took an important part in Russian history, and, singularly enough, Marpha la Possadnitza, the republican heroine of Novgorod The entire monument, seen from a short distance, assumes the appearance of a gigantic bell a bell, indeed, which in the ears of Russia, resounds with the echo of ten centuries

FEEDING SWINE—Mr Taggart, of Wayne County, at the last annual meeting of the Ohio State Board, said he was not in favor of feeding hogs long to make them weigh large weights He kept his in the clover field the beginning of September, then, when the corn begins to harden, cuts it up, both ear and stalk, and feeds it to them "One bushel of corn, in September, will fatten more than one and a half in December" Mr T recommended killing by the 15th of November as being the most profitable time, for then there has been little expenditure of carbon for the production of heat, when, if left for another month, the cold, wintry storms make this necessary

DECIDEDLY RICH —The Olympia correspondent of the *P S Herald* gets off a personal notice of Mr Frank Clark, of Pierce county, W T, which we copy without comment, as "commenk is yewsless" to those who know

Decidedly the smartest business man in the Council is Frank Clark The stranger who looks in upon that body will not be long in fixing upon him as by far the best parliamentarian, the keenest and carefulest observer of all that is going on, and the most faithful in discharging his duties A most untiring worker, whatever he undertakes is pressed forward with vigor and determination to its completion

POLITICAL STATUS—The New York *Times* is entirely at a loss to know what the *status* of the negro in the South will be at the Emancipation is effected The National *Intelligencer* of the 14th of December seems to think the following in answer to the *Times*

It is not to be supposed that the President issued his Proclamation of Freedom on the 22d of last September without having digested and matured his views on all those topics which seem so difficult to the *Times* He will therefore be able in his message to recommend the measures that should be taken to solve all the problems connected with the great act of enfranchisement It will be for Mr Lincoln to state with what limitations and with precision his views as to the political equality and status of the loyal blacks in all the Insurgent States under and by virtue of this proclamation after the 1st of January next

As under the existing apportionments of the Constitution, only three fifths of the slaves in the Insurgent States are counted in estimating the representative population of such States it will be an incalculable consequence to the cause of emancipation to increase the number of Representatives to which they are by all entitled in the popular branch of Congress This, we suppose will be done by Congress and as the Insurgent States, if left to themselves, are little likely to respect the freedom and political rights acquired by the 'loyal blacks' under the proclamation, it will remain for Congress to take the necessary measures to give legal force and effect to all the franchise imparted to that portion of the colored race which comes within the scope and under the operation of the military decree of emancipation

The Markets.

We have commercial advices from San Francisco to the 7th of January. Wheat for seed had advanced to $1 80 @$1 85 per ctl, in the face of native produce for prompt use prices being extra, $2@$2 and entirely unsalable at $1 50 The sales of Oregon apples had been at very favorable rates Say from 1½ to 3c for good cooking apples Something over 10,000 boxes have been exported since New Year's Day Victoria dates to the 11th of January advise us of continued depression in the prices of domestic produce, although butter and eggs have been shipped in considerable quantities to that market from this place The demand for provisions here is slight but we look confidently for better times during the coming month and our country friends will do well to stand ready with their supplies when the rush to the mines commences We call particular attention to the merchants' circular in regard to Legal Tender Notes which explains itself and to our corrected Prices Current

Proclamation by the Governor

EXECUTIVE OFFICE, PORTLAND OREGON, January 6, 1863

By the President of the United States, through Brigadier General George Wright, commanding the Department of the Pacific, and Brigadier General Benjamin Alvord, commanding the District of Oregon, I have been requested to raise six additional companies required to complete the 1st Regiment of Cavalry Oregon Volunteers They will be needed the coming Spring on the frontiers of this State and Washington Territory, and for an expedition against the Snake Indians who have so long been mercilessly engaged in robbing emigrants and murdering our fellow citizens I cannot doubt that the citizens of Oregon, who have always promptly responded to any demand for their military services, will in like manner respond to this call thereby showing their loyalty to the Government, and aiding in chastising marauding bands of Indians which infest our frontiers

The enlisted men, when mounted will be supplied with horses by the United States it being understood that they will be mounted or not, as shall be deemed advisable by the Government

Propositions to raise a whole company, which will furnish their own horses and horse equipments, may be entertained The men are in such cases entitled to forty cents a day for the use and risk of their horses and horse equipments

Each company will consist of one hundred enlisted men and when mustered into the service of the United States to serve for three years, unless sooner discharged

Recruiting offices will be immediately opened at Portland Dalles City and perhaps at other places By the Governor
